EDUCATION

- Poornima University** Jaipur, Rajasthan, India
Master Of Computer Application - Computer Science And Technology; GPA: 8.10
August 2022 - April 2024
Courses: Languages, Data Structures, Analysis Of Algorithms, Operating Systems, Databases
- S.S. Jain Subodh PG (Autonomous) College** Jaipur, Rajasthan, India
Bachelor of Technology - Information Technology; Percentage: 66
September 2019 - May 2022
Courses: Mathematics Concepts , Statistics

SKILLS SUMMARY

- Languages:** Java, C++, SQL, Python, Html, CSS
- Frameworks:** Spring, Spring Boot
- Tools:** Docker, GIT, PostgreSQL, Github, Jira, MySQL, SQLAlchemy
- Platforms:** Web, Windows, MacOS
- Soft Skills:** Leadership, Writing, Public Speaking, Teamwork

EXPERIENCE

- Code Planet Technologies** OnSite
Java Developer (Intern) Aug 2023 - Nov 2023
 - Team Collaboration:** Demonstrated ability to effectively collaborate and contribute within a team setting, fostering a positive and productive work environment. Utilized strong communication to exchange ideas, resolve conflicts, and achieve common goals.
 - Skill Development:** Attained proficiency in a diverse range of technical skills including Java, MySQL, and HTML. Actively engaged in continuous learning and improvement to stay abreast of industry advancements and enhance capabilities
 - Task Completion:** Displayed consistent dedication and reliability in completing assigned tasks promptly and efficiently. Actively participated in team discussions, offering insights and solutions on operationally relevant topics to contribute to team success and efficiency. Relevant topics within the team.
- Friends Union Of Energising Lives** Onsite
Software Developer (Intern) May 2023 - July 2023
 - Core Java Concept:** Developed a deep understanding of fundamental Java principles, including object oriented programming. Understanding of applying Java concepts to solve complex problems.
 - Task Management:** Completed daily tasks aligned with project goals.
 - Backend Development:** Created efficient backend APIs contributing to project development.

PROJECTS

- Electronic Hub Store - Ecommerce Website** Java, JDBC, Servlets, Mysql
I developed an e-commerce website focused on enhancing customer experience by leveraging Servlets for efficient server-side request mapping and robust backend functionality. The frontend was designed using HTML, CSS, and JavaScript to create an engaging and user-friendly interface, ensuring visual appeal and ease of navigation. The tech stack included Java, JDBC, Servlets, and MySQL, providing a reliable and scalable platform that facilitated smooth client-server interactions and efficient data management. This combination of technologies resulted in a seamless and enjoyable shopping experience for users.
